Victoria Falls constitutes one of the most spectacular natural wonders of the world. The local people call it "Mosi-oa-Tunya" the smoke that thunders and the Falls are remarkable. The Victoria Falls is 1,708 meters wide, making it the largest curtain of water in the world. It drops between 90m and 107m into the Zambezi Gorge and an average of 550,000 cubic meters of water plummet over the edge every minute.
